

MEET THE TUTT FAMILY

Ede Tutt and children, Odianosen (age 7) and Tiyosayi Esekhi (age 3), are so excited about having a home of their very own. Besides being a busy mom of two, she works fulltime as a nursing assistant at Oxford Nursing Home, McKinney, Texas. She is continuing her education and is studying to become a certified phlebotomist.

Ede's father, Tony Igbenosa, brought the family to America, but later returned to Nigeria to be with extended family; after living and working in the United States for 20 years. She has siblings who reside in Boston, Massachusetts, where her family originally settled when they arrived in the United States.

Ede's adventurous spirit led her to California, but it didn't take long for friends to encourage her to move to Texas. She is very happy to call McKinney, Texas her home. If Ede is not working, corralling kids, studying, or getting those sweat equity hours completed, you will find her with the Church Family that she loves.

and may the door be open to old & new friends and happy memories.*

Steve Myers & Jim Collins

Litany of Dedication

Leader: As we recall many hours of planning, organizing, raising the money, building and the hard work of many that has made this home possible, let us celebrate the Tutt family waiting to start a new life in this home. May the grace that brought us together continue to dwell here, that this home and family, a legacy of love, may stand firm.

All: We so dedicate this house!

Closing Prayer

Julie Belk
